

FOLIO

General Faculties Council

To be, or not to be—that was the question facing Council on 27 June as it considered, among other proposals, one for an increase in the basic entrance requirement (from sixty to sixty-five percent), another for the founding of a Department of Film Studies and a corresponding BA degree program, and a third for the initiation of cash awards for Rutherford Undergraduate Teaching Award winners.

Council carried by a 57 to 19 vote a proposal from Vice-President (Academic) Baldwin which reads as follows: "That as a response to the severe underfunding experienced by the University, the University's minimum entrance requirement be raised from sixty to sixty-five percent beginning September 1984."

The proposal generated much discussion beginning with Dr. Baldwin's comment that the University has to do more to achieve academic stability other than just getting through the next two years. "We must regain lost ground...no swing in government funding policy is going to put us on firm footing," Dr. Baldwin told the assembly. Academic necessity, he added, dictates that the University take fewer students. The alternative is a steadily deteriorating academic situation which none of us wish to contemplate, he said.

Stan Munro, East Asian Languages and Literatures, said many people in the University community anticipate lower grades generally because of the province's return to compre-

hensive examinations next June. President Horowitz then remarked that the University never changes its regulations to affect a group of students who are in grade 12 unless the University and the students feel that it is to their advantage to do so.

Robert Greenhill, President of the Students' Union, called the proposal a radical step which has major long-term implications. He felt that demographics and economic conditions should be looked at more. In stating that the move was essentially a symbolic

one, Mr. Greenhill warned that the University may find itself with too few students.

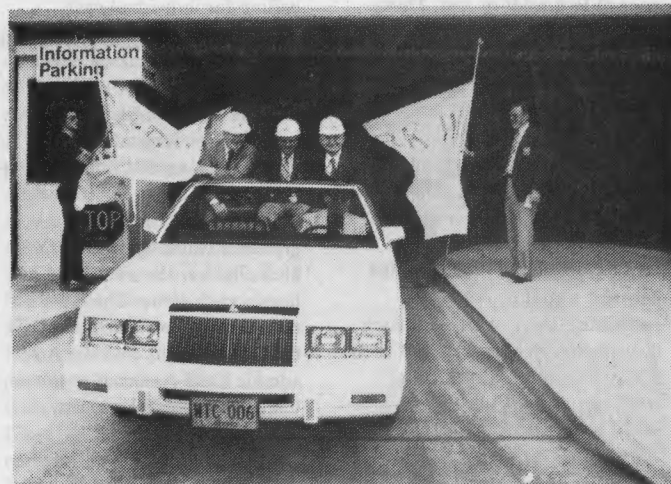

Upon hearing Terry White, Dean of Arts, remark that there are currently too many students with too few dollars to maintain quality education, Mr. Greenhill said the matter was not so much one of too many students as it was one of too few dollars. Buoyed somewhat by the fact that the University has started to lay the groundwork for the institution's role during the next several years, he nonetheless maintained that "we can't be all things to

all people." The University, he suggested, must define its priority programs and budget accordingly.

Leslie Bella, Associate Dean, Physical Education and Recreation, said the proposal "might be a little heavy in terms of strategy to deal with the problem at hand." Oswald Sitwell, Department of Geography, expressed concern with the public perception of the University and suggested rewriting the proposal so that it began, "Due to the deterioration of education..." Dr. Baldwin's rejoinder was that there is not extraordinary interest among the public regarding decisions taken by GFC.

John McDonald, Dean of Science, said the proposal was not a radical one. "The key is that we, as a university have a responsibility to play fair with students we accept...we must provide adequate instruction." Dean McDonald then referred to the crowded conditions in the Departments of Computing Science (classes of 350 students) and Mathematics. (Incidentally, President Horowitz, in presenting the latest report of the Planning and Priorities Committee, told Council that the well-being of Computing Science is, as it was last year, the University's number one priority. There are seventeen other priorities but their ranking remains with PPC.)

The University absorbed more than 2,000 new students in the just completed academic year, an increase of about eleven percent over 1981-82.

#(\$@+?/#! and other expletives muttered by potential parking patrons who had to be turned away because the lots were full should lessen considerably. Car Park III, which was handed over to the University on 24 June, provides space for 550 vehicles. Here, punctuating the remarks of Master of Ceremonies Doug Burns and Builders' representatives Ron Anderson and Scotty McIntosh, are (right to left) Chancellor Savaryn, President Horowitz, and Board of Governors Chairman Schlosser. The new facility at 114 Street north of 87 Avenue was brought in at a cost of \$4 1/4 million, about \$3/4 million under budget. The finishing touches are being applied; Campus Security and the Health and Safety Offices will move in this fall.*

About \$2 million in "soft funds" was received from the provincial government to handle the influx. The bulk of the money went to those Faculties that took on a heightened workload—Arts, Science, Education—and to the Library.

President Horowitz reported that, according to the best estimate, the University will experience an increase in enrolment of at least four percent in 1983-84.

Printed matter before Council contained the statement that, since February, the Academic Development Committee "has been considering various initiatives that might serve the interests of the University and its students as a response to enrolment pressures rendered intolerable by severe underfunding."

In the time available, wrote Vice-President Baldwin, only minor adjustments to the system could be made for September 1983. ADC, he stated, is in agreement with what generally appears to be the policies being pursued elsewhere. "Given the uncertainty of enrolment projections beyond the next few years and our responsibility for providing reasonable levels of access to students who can benefit from education at the University, our

response to the pressures being experienced must be measured and flexible while at the same time ensuring that our programs recover and maintain their academic integrity."

Dr. Baldwin said the actual reduction in numbers of students resulting from the increase to sixty-five percent ranges from about 300 to 650 depending on whether attention is focussed on first-year intake or all years (after normal drop-out rates are taken into account). "In either case it is not suggested that our projections are fixed. The point is that a start must be made somewhere, and in the judgment of ADC, raising the University entrance requirement is the most appropriate first step."

Council, as reported earlier, agreed.

Film Studies

The vote to decide whether there should be a Department of Film Studies and a BA degree program was much closer. In fact, a written ballot was necessitated because the mechanical count showed a difference of five votes or less. Thirty-two members favored the proposal, thirty-six did not. The nay voters may have been influenced to a degree by J.W. Osborn, Dentistry, who by-passed Central Casting and thrust himself into the role of devil's advocate. After questioning the proposed designation "BA Film Studies" (he felt "BA Movies" would be more appropriate), Dr. Osborn expressed discontent with the various allocations (budget, full-time staff, course work) to the proposed department. He also warned that "if a government department were to take the time to analyse such a proposal they could be more critical than I."

Dean White accused Dr. Osborn of attempting to trivialize the issue and said that if Dr. Osborn were to suggest that the Faculty of Dentistry be renamed the Faculty of Teeth then he (White) would go along with that. The Dean pointed out that film studies courses have

been taught in the Faculty for the past five years. "I was skeptical originally but just as the study of literature is a bona fide pursuit, so too is the study of film."

Student members of Council did not favor the creation of the department because of the Students' Union dictum that the University seek no new programs or buildings until its operating budget is increased.

L.C. Leitch, Vice-President (Finance and Administration) told GFC that the format used to develop the department's budget is one that has been in use for two years and that government recognizes and supports it.

Under the heading "Justification," the Faculty of Arts stated that across Canada there are nearly 100 post-secondary institutions offering programs of film studies. "It is an embarrassing anomaly for one of the country's major institutions, The University of Alberta, to provide so little in this important field."

Rutherford Awards

Council considered a motion calling for individual cash awards to be made to recipients of the Rutherford Awards to a level equivalent to the University Research Prizes.

GFC's Undergraduate Teaching Awards Committee, established in 1981, awards between one and four undergraduate teaching awards annually, but the awards do not have a cash value. The Research Prizes, awarded annually by the University and the Academic Staff Association to two University researchers, carry a cash value of \$2,500.

A written ballot again supplanted the machine count. The motion was defeated by a 31 to 29 margin.

New Members

The following undergraduate students were appointed to serve on GFC from 27 June to 31 March 1984: Ralph Beig and Kevin Voon (Medicine), Nancy Hambley (Nursing), Randy Filan (Rehabilitation Medicine), and Stewart Graham

and Valerie Metszies (Science).

Council also received the names of the following faculty members who have been elected or re-elected to serve for the period 1 July 1983 to 30 June 1986: L.P. Apedaile (Rural Economy), A. Carlson (Philosophy), G.C. Cree (Mathematics), H.B. Dunford (Chemistry), R. Faryon (Extension), P.A. Goud (Electrical Engineering), M.J. Hodgson (Geography), W.R. Kaufman (Zoology), D. Lubell (Anthropology), A.M. McLellan (Law), J. Orrell (English), J.A. Robertson (Medical Microbiology), R.B. Stein (Physiology), J. Terfloth (Drama), and I. Ivankovich (Business).

Appreciation of the *Multilingual Lexicon for Universiade Sports* was expressed and President Horowitz urged the gathering to represent the University by communicating informally with athletes, officials, and visitors during the course of Universiade '83. □

Circle the 22nd for Breakfast

The traditional NASA Klondike Breakfast will be held on 22 July from 7 to 10 a.m. in the Central Academic Building cafeteria. The cost per plate (pancakes, sausages, orange juice and unlimited coffee) is \$2.25. The administration has agreed to time off for non-academic staff subject to arrangements being made with individual department heads.

Entertainment will begin at 7 a.m. with the piano stylings of Ernie Towne. The remainder of the slate reads: The Klondike Review, 8 to 8:30 a.m.; Klondike Kate, 9 to 9:30 a.m.; Kathy Mitchell and her band, 9:30 to 10 a.m.

All members of the University community are urged to attend and support the event by wearing Klondike attire. A prize of \$25 each will be awarded to the best dressed male and female. □

R.C. von Borstel Honored by Genetics Society of Canada

R.C. von Borstel, Professor of Genetics at this University, was presented with the Award of Excellence of the Genetics Society of Canada on 26 June. The award, the highest honor of the Society, was given to Dr. von Borstel for his research during the past twenty years on the origins of spontaneous mutations (sudden heritable changes in cells). Mutations are the primary genetic events leading to evolutionary changes in a species when they occur in the germ cells; they can cause cancer when they occur in other cells of the body. Mutations can be caused by cancer-causing chemicals, ultraviolet rays and X-rays, but the principal contribution of Dr. von Borstel has been on providing an understanding about those mutations which are caused by the metabolism of the cell itself.

Dr. von Borstel has made several major contributions in the field of research. In 1962, in collaboration with G.E. Magni, now at the University of Milan, he discovered the importance of genetic recombination in the spontaneous mutation process. During the late sixties and early seventies, in collaboration with C.M. Steinberg, now at the Basel Institute for Immunology, Switzerland, Dr. von Borstel was among the first to demonstrate that DNA repair processes are heavily involved in the spontaneous mutation process. With his current collaborators at The University of Alberta, Siew-Keen Quah and P.J. Hastings, Dr. von Borstel demonstrated that spontaneous mutations are the result of channelling of DNA lesions into a repair pathway that causes mutations even while the DNA is being repaired.

The Award of Excellence has been presented to eight Canadian and U.S. scientists since it was first awarded by the Genetics Society of Canada in 1976. Besides Dr. von Bor-

stel, three of those so honored have been associated with The University of Alberta. Howard T. Fredeen, Research Scientist at the Agriculture Canada Research Station in Lacombe, received the award in

1978 for his research on swine improvement. Dr. Fredeen received his MSc in Agriculture from the University in 1947. R.K. Mortimer, who was born in Didsbury, Alberta, was presented the Award of Excellence in 1981 for his important role in laying the foundation of yeast genetics. He received his BSc in Physics in 1949 at The University of Alberta. Dr. Mortimer is now Professor of Biophysics at the University of California in Berkeley.

Clayton Person received the award in 1982 for his studies on the genetic factors controlling host-parasite relations. Dr. Person took his PhD in Plant Science at our University in 1953, and in 1961 was appointed the first Chairman of the then new Department of

Genetics, University of Alberta. He is now Professor of Botany at the University of British Columbia.

Dr. von Borstel, the latest recipient of the award, was Chairman of the Department of Genetics at The University of Alberta from 1971 to 1981. He was President of the Genetics Society of Canada in 1979-80, as well as Chairman of the Grants Selection Committee for Cell Biology and Genetics of the Natural Sciences and Engineering Research Council of Canada, also in 1979-80. Currently, he is Co-Chairman of the Executive Committee for the forthcoming International Meeting on N-Nitroso Compounds: Occurrence and Biological Effects, to be held in Banff, 4 to 9 September 1983. □

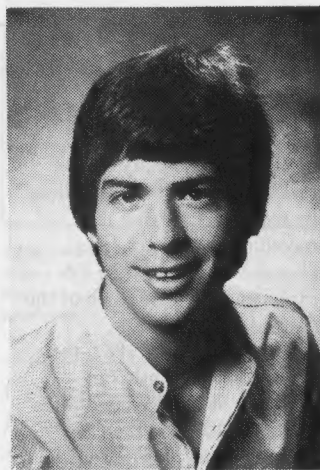

Science Awards Gold Medals

Each year the Faculty of Science, like several other Faculties, awards gold medals to outstanding students who graduate at Spring Convocation. This year, the following awards were made.

Lieutenant-Governor's Gold Medal

The Lieutenant-Governor's Gold Medal was awarded to *Lewis E. Kay* as the graduating student from an honors program who demonstrated the highest distinction in scholarship in the Class of 1983. Mr. Kay also received a first class honors BSc in Biochemistry and the Society of Chemical Industry Merit Award. He will enrol this coming fall as a doctoral student in Biochemistry and Molecular Biophysics at Yale University and will hold a 1967 NSERC Predoctoral Fellowship.

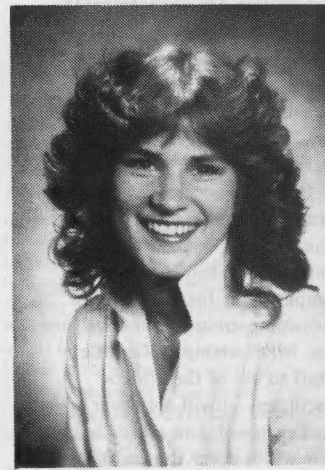

In each of his undergraduate years at The University of Alberta, Mr. Kay was

awarded the Board of Governors Prize for the highest standing in the Faculty of Science. He formerly attended Ross Sheppard High School.

Gold Medal in Science

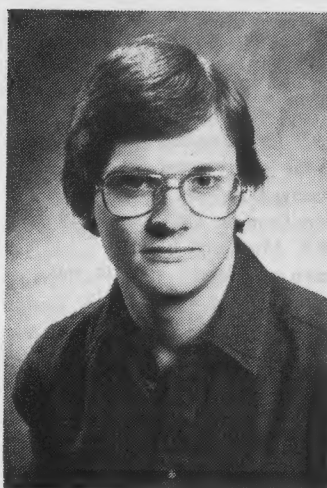

The Gold Medal in Science was awarded to *Teri-Lynn Bazylewich* as the graduating student who has shown the high-

est distinction in scholarship in a specialization program. Miss Bazylewich, a graduate of McNally Composite High School, received a BSc with specialization in Psychology, with Distinction. During her undergraduate career, she held a four-year scholarship from Imperial Oil Ltd. and a Louise McKinney Alberta Heritage

Trust Scholarship in her third year. In 1982, Miss Bazylewich was offered a NSERC Research Scholarship.

Dean's Gold Medal in Science
The Dean's Gold Medal in Science was awarded to *Jeffrey G. Brooks* as the 1983 graduate who has demonstrated the highest degree of scholarship in the General Program. Mr. Brooks, who formerly attended Jasper Place Composite High School, received a BSc with Distinction. In the fall, he will pursue studies in Veterinary Medicine. □

Conference Attracts National Delegates

Alumni, Information and Development administrators from numerous Canadian universities and colleges participated in a three-day conference (23 to 25 June), hosted by our University.

President Horowitz opened the conference, held at the Westin Hotel, by welcoming the delegates to Edmonton and the University. The conference included in-depth panel discussions pertinent to each of the three groups. Among the top-

ics were: "The Institutional Newspaper: Present Role and Future Direction;" "Working Towards Financial Self-Sufficiency;" "University and Government Relations;" "How Well are Universities and Colleges Telling Their Stories? Reactions from Journalists;" "Government Support for Post-Secondary Education;" and "Public Perception of Universities and Colleges."

Panelists included directors of University and College Alumni, Information and Development Offices. Among the guest panelists were Kenneth Ozmon, President, St. Mary's University; Gerry Kelly, President, Grant MacEwan Community College; David Johnston, Principal, McGill University; George Pedersen, President-Elect, University of British Columbia; David Cameron, Assistant Under Secretary of State, Government of Canada; and Stephen Hume, Editor, Edmonton Journal. □

Athletic Memberships Available to NASA Members

A program of athletic memberships has been ratified by the Non-Academic Staff Association membership by a vote of 756 to 315. Accordingly, NASA will issue membership cards for athletic facilities free of charge to all non-academic staff beginning 7 July. (The delay from 4 July results from delays imposed by arbitration board hearings 21 and 22 June.)

Staff members will be required to visit the NASA office in person between 8:30 a.m. and 4:30 p.m. to receive their cards.

Staff can receive either a single or family membership and the cost will be paid from the fund established by the Unemployment Insurance Commission premium reduction monies. Membership will entitle staff to use of the athletic facilities—it will not cover locker, towel, and other charges, nor will it cover the cost of fitness courses.

Access to the facilities will be quite limited until 15 July at least, and members will have to make their own arrangements for lockers, etc. Current cards will be honored by Athletic Services until members receive new cards from NASA.

The NASA office is located on the ground floor of the Campus Tower Building,

southeast corner of 87 Avenue and 112 Street. Entrance is off 112 Street, between the Campus Drug Store and the New Century Book Store. Regular staff are asked to bring either their NASA membership or personal identification. Trust employees and excluded employees should bring evidence of

employment with the University in order to avoid delays in processing their applications. A letter from their department confirming employment will be acceptable. NASA officials ask that only those people who intend to use the facilities apply for cards. □

Centre for International Education and Development Publishes

The Centre for International Education and Development (CIED) of the Faculty of Education released its first publication recently. Carrying the proceedings of the 3rd International Workshop in the Education and Rehabilitation of the Disabled held in Ghana, West Africa, in July 1982, the publication was jointly funded by the World Rehabilitation Fund of U.S.A. and the Centre for International Education and Development which received a grant from the Vice-President (Research) Discretionary Fund (Endowment Fund for the Future) for this purpose.

The book's twenty contributions include two chapters co-authored by G.M. Kysela and Kofi Marfo, both of the Department of Educational Psychology. In his publisher's note

to the book, CIED Director M.K. Bacchus noted: "One of the objectives of CIED is to contribute to the spread of ideas about and practices in education in the Third World so that these countries can learn from each other and not only from the economically developed countries as has been their traditional practice."

Education and Rehabilitation of the Disabled in Africa, Vol. I: Towards Improved Services is jointly edited by Kofi Marfo of the University of Cape Coast, Ghana (currently a doctoral student in our University's Department of Educational Psychology); Sylvia Walker, Associate Professor of Education at Howard University, Washington, D.C.; and B.L. Charles, a Director of the World Rehabilitation Fund, and Program Officer at Carnegie

Corporation of New York.

The book is available at \$6 a copy, and may be ordered from: CIED, 5-104 Education North. □

See You on Court

To avoid tendentiousness at the University of Alberta Tennis Centre, Dickson Wood, manager of the Michener Park-situated facility, has worked out a plan. At the conclusion of the World University Games, Mr. Wood will effect a playing time schedule and membership fee structure. The nine-courts, each with a rubber-based surface, will operate on a user pay system. The fees for University staff are \$40 for a single membership plus \$20

for one's spouse and \$15 per child. The student fee is \$30 per person.

University staff and students can use the courts free of charge from 7 to 9 a.m. weekdays.

For the general public, the fees are \$50 for a single membership, \$25 for spouse, and \$20 per child. Junior mem-

berships (eighteen years and younger) are priced at \$40 and are intended for youths whose parents are not members of the Centre. On a pay-as-you-play basis, the cost of a court is \$8 per hour (plus another \$4 if you bring a guest).

The season starts 15 July and runs until the snow flies.

Mr. Wood told *Folio* that

the fees exist on a trial basis. He and the Centre's staff will review the first season and determine just how the facility will best operate. Feedback from players is invited.

The Faculty of Physical Education and Recreation will be involved in various intramural and instructional programs and a housewives program and a

juniors program will likely be instituted. The University of Alberta Tennis Centre is located at 51 Avenue and 121 Street. There are change facilities on site as well as parking spots for thirty vehicles. Additional parking is available along 51 Avenue.

Mr. Wood can be reached at 438-2901.□

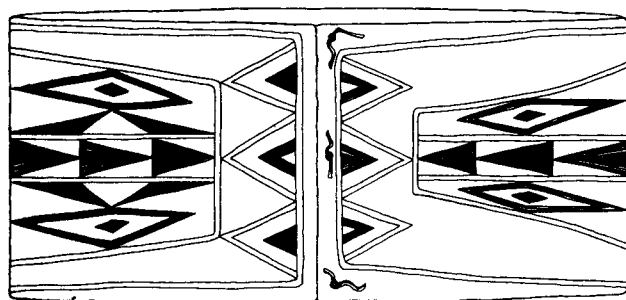

Alberta Before Oil

"Alberta Before Oil" is the title of an exhibition organized by the Departments of Anthropology and History at the request of the Native Project Committee. From now until 15 July visitors can see a number of historic items drawn from the O.C. Edwards Collection. The collection, purchased by the University in 1919, is considered one of the finest collections of native artifacts in North America. It preserves many sterling examples of a way of life prior to the extermination of the buffalo.

Dr. Edwards was for many years a practising physician near the Blood Reserve near Fort Macleod.

"Alberta Before Oil," showcasing as it does an Indian dress decked out with lavish beadwork, a woman's saddle made of rawhide, a dog sled, a bone breastplate, a full-size birchbark canoe, a scale model teepee, and a reproduced painting of old Fort Edmonton (established in 1795, ten years before the Lewis and Clark expedition), conveys a forcible sense of history and development.

The exhibition is in the Heritage Lounge, main floor of Athabasca Hall. Hours are 9 a.m. to 9 p.m. Monday to Friday, and 9 a.m. to 6 p.m. Saturday and Sunday.□

people

Bruce Bain (Educational Psychology) and Agnes Yu (Edmonton Public Schools) have been appointed Advisers of Professional and Academic Activities, Hong Kong Teachers' Association.

Lubomyr Luciuk (PhD candidate, Geography) was recently awarded a St. John's Institute Scholarship in Memory of S.F. Woloshyn, to pursue his research on the immigration of Ukrainian refugees into Canada after the Second World War.

service information

All information to be included in this column must reach the Office of Community Relations by 9 a.m. the Thursday prior to publication.

Coming Events Lectures and Seminars Alberta Heritage Foundation for Medical Research

12 July, 4 p.m. Rhoda Blostein, Montreal General Hospital Research Institute, will lecture on "Changes in Membrane Function During Reticulocyte Maturation." Hosted by the Department of Biochemistry and the Faculty of Pharmacy, 4-70 Medical Sciences Building

Exhibitions

Until 10 July, "Local Exposure: Swimwear on the Prairies." The exhibit illustrates the vast changes in the appearance of swimwear in the past 100 years, as a result of changes in fashion technology and attitudes

towards modesty. Dressmaker, knit and synthetic suits, representative of those worn on the Prairies, are presented in a playful beachlike setting. In the yellow and white tent, south of the Home Economics Building.

Ring House Gallery

Until 31 July, "Masquerade"—celebrating Universiade '83.

Devonian Botanic Garden

The University of Alberta Devonian Botanic Garden is open to the public, free of charge, from May to September. The hours are 10 a.m. to 4 p.m. weekdays and noon to 6 p.m. weekends and public holidays. The Garden welcomes visitors and is located on Highway 60, some 4.8 kilometres north of Devon.

Rutherford House

The restored home of Alberta's first premier, A.C. Rutherford, is located at 11153 Saskatchewan Drive. Costumed staff lead visitors through the house and help recreate the atmosphere of the 1911-1915 period. Open: Victoria Day weekend to Labour Day—10 a.m. to 8 p.m. daily. For more information or to arrange group tours, phone 427-3995 or 427-5708. Free admission.

Non-Credit Courses Computing Services Client Training Sessions

Computing Services is taking registrations between 8:30 a.m. and noon for the following non-credit courses. Please phone 432-2261 first to confirm the dates.

Payment is required in advance and clients who do not cancel two business days in advance will be charged. Contact Carey, Training Assistant, 323 General Services Building, telephone 432-2261, for more information.

Courier Operation and Visual Editing

Course number: 1035. Date: 2, 4 August.

Time: 10 a.m. to noon. Fee: \$15. Prerequisites: "MTS and Editor Fundamentals" or "MTS and File Editing Concepts" and a good working knowledge of the File Editor. Place: 327 GSB.

Advanced Textform

Course number: 1054. Date: 15, 17, 22, 24 August. Time: 2 to 4 p.m. Fee: \$25.

Prerequisites: "Introduction to Text Formatting" or equivalent familiarity with TEXTFORM. Place: 769/357 GSB.

Introduction to Computing at the U of A

Course number: 5. Date: 11 July. Time: 7 to 9 p.m. Fee: \$10. Prerequisites: No previous computing experience, but familiarity with a keyboard is required. Place: 351 GSB.

Introduction to MINITAB

Course number: 1071. Date: 26 July. Time: 1 to 4 p.m. Fee: \$5. Prerequisites: "MTS and Editor Fundamentals," "MTS and File Editing Concepts," or a good working knowledge of MTS if required. "Data Preparation for Statistical Packages" is recommended. Place: 769/351 GSB.

MTS and Editor Fundamentals

Course number: 6. Date: 13, 15 July. Time: 7 to 9 p.m. Fee: \$15. Prerequisites: "Introduction to Computing." Place: 351 GSB.

AJ 510 Operation and Visual Editing

Course number: 7. Date: 19, 21 July. Time: 7 to 9 p.m. Fee: \$15. Prerequisites: "MTS and Editor Fundamentals" or "MTS and File Editing Concepts" and a good working knowledge of the File Editor. Place: 357 GSB.

Faculty of Extension Fitness Classes

For further information on the courses listed below, phone 432-2015.

From Fat to Fit

Date: Starts 11 July. Time: Monday, Wednesday and Friday from 10:30 a.m. to noon for three weeks.

Get Fit Co-ed Class

Date: Starts 11 July. Time: Monday, Wednesday and Thursday from 5:30 to 6:30 p.m. for three weeks.

Immersion Fitness Co-ed

Date: Starts 11 July. Time: Tuesday, Wednesday, Thursday, and Friday from 9 to 10 a.m. for three weeks.

Tai Chi Classes

Date: Starts 12 July. Time: Monday and Thursday from 6 to 7:30 p.m. for four weeks.

Department of Electrical Engineering CADDs 4 BASIC

Date: 18 to 29 July. Time: 9 a.m. to 4 p.m. Fee: \$300. The course is a lab/lecture introduction CADDs 4 software using the Computervision System. Place: EB 540 Department of Electrical Engineering. Call 432-5966 or 432-5877 for further information.

Notices

For Safety's Sake

Operators of motor vehicles are cautioned by Campus Security against driving their vehicles contrary to traffic direction

signs. It appears that this is becoming more prevalent, particularly entering "U" and "N" Zones when some congestion occurs at the kiosk entry. It has also been noted that some operators are entering "G" Zone by travelling contrary to the one-way designation of the avenue on the north side of Corbett Hall.

University Traffic Regulations provide financial sanctions against offenders and these will be vigorously applied.

Thank You

Bob and Mary Middleditch thank all those friends who conspired to make Bob's retirement celebration such an enjoyable occasion.

Hispanic Cultural Heritage

The Asociacion para el Desarrollo de la Cultura Hispanica de Edmonton (AP-EDECHE) will hold a general meeting, for those interested in Hispanic culture and literature, on 12 July at 7 p.m. in 119 Arts Building. For more information, telephone 436-2546.

Surplus Equipment

The equipment appearing in this column is available only to University Departments with University Administered Funds. For further information about the purchase of equipment or the disposal of any of your department's surplus equipment, contact Bonnie O'Dwyer or Roy Bennett, telephone 432-3208.

"Wanted"--Surplus laboratory equipment.

For further information, please contact: Bruno Maranda, S.M.R.I. at 432-3375.

Positions Vacant

The University of Alberta is an equal opportunity employer but, in accordance with Canadian Immigration requirements, these advertisements are directed to Canadian citizens and permanent residents.

Assistant to the Associate Dean, Faculty of Arts

This position reports directly to the Associate Dean, Student Program Office. The Student Program Office handles student interviews and applications for admission to Arts programs, program and transfer decisions, as well as student record information. The Assistant to the Associate Dean is responsible for the administrative/managerial operation of this office. The Arts Faculty has nine degree programs, eighteen departments, and has a student enrolment of approximately 5,500 students.

Minimum requirements are a bachelor's degree and several years of administrative/managerial experience, preferably in a post-secondary institution. Salary range is \$26,718-\$40,086.

Interested persons are invited to submit an application along with a resume and list of referees to Dr. Brian L. Harris, Associate Dean, Student Program Office, Faculty of Arts, no later than 25 July 1983.

Assistant to the Dean of Students in Residence (Kelsey Hall)

The Assistant to the Dean of Students in Residence resides in Kelsey Hall, a 400-student co-ed residence located within the Lister Complex.

The Assistant to the Dean in Residence represents the University Administration in the conduct of Student Affairs within the Residence by serving as an Advisor to the Student Government and seeing to the general welfare of students residing in that Hall.

The Assistant to the Dean in Residence reports to the Dean of Students, and is responsible for discipline and the improvement of residence life within that Hall.

The ideal candidate is the University graduate returning to The University of Alberta for an advanced degree after working in a related field. The applicant should have some experience in student affairs, counselling, or some aspect of University administration.

Further information can be obtained by contacting the Assistant Dean in Residence-Coordinator at 432-4145 during office hours.

Starting date: 1 August 1983.

Résumé and curriculum vitae should be sent to: Assistant to the Dean in Residence-Coordinator, c/o Office of Student Affairs, 225 Athabasca Hall, The University of Alberta, Edmonton, Alberta T6G 2E8.

Non-Academic Positions

To obtain further information on the following positions, please contact Personnel Services and Staff Relations, 2-40 Assiniboia Hall, telephone 432-5201. As positions are filled on an on-going basis, these vacancies cannot be guaranteed beyond 30 June 1983. Salaries are currently under review. For a more up-to-date listing, please consult the weekly Employment Opportunities Bulletin and/or the postings in PSSR.
